

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

## BRAZIL.

*Sanitary report of Rio de Janeiro.*RIO DE JANEIRO, *June 9, 1896.*

SIR: I have the honor to transmit report for the week ended June 6, 1896:

There were 4 deaths from *accessio pernicioso*, a decrease of 6; 12 from yellow fever, a decrease of 11; 4 from smallpox, an increase of 3; 7 from beriberi, a decrease of 2; 4 from enteric fever, an increase of 2; 46 from tuberculosis, an increase of 15. From all causes there were 291 deaths, a decrease of 12. I think there is a decided improvement in the sanitary condition of this port, all the zymotic diseases declining except smallpox, and the small increase in the number of cases and deaths from this disease may only be temporary.

Since last report the following-named ships have been inspected or received bills of health from this office: June 2, steamship *Straits of Dover*, British, for Santa Lucia, West Indies, and steamship *Etona*, British, from Buenos Ayres for New York; June 3, barkentine *Moses B. Tower*, American, for New York, N. Y.; June 6, steamship *Cole-ridge*, Belgian, for New York; June 8, steamship *Salerno*, German, for New York; June 9, bark *Nordstgerman*, Swede, for Mobile, Ala.

Respectfully, yours,

R. CLEARY, M. D.,  
Sanitary Inspector, U. S. M. H. S.
